NO MORE PAIN AFTER EATING.

Only those who have known the torment of digestive pain and that oppressive fulness after meals can realise the marked relief after Bisurated Magnesia brings. It's so sure which and so certain; all trace of pain being gone within minutes. Bisurated Magnesia is about the best thing you can get for digestive trouble; it stops the food fermenting and neutralises the acid; but you must try it to realise how effective it really is. Ask your chemist for a package to-day and try it for yourself—you'll soon be glad you saw this hint. But make no mistake: it's Bisurated Magnesia. But make no mistake: it's BISMAG." You will then be sure you have something that really will do you good.

PIECE-GOODS.

The improvement of the previous week in the cloth market has been well maintained and there has been decidedly more inquiry, retail as well as wholesale. On the opening of the bazaar on Wednesday last, after the Holi holidays, some useful support has been given by Delhi and Cawnpore buyers chiefly in White goods, and the turnover has been satisfactory. More activity has been noticeable chiefly owing to the approach of the marriage season, and the prospects seem to be brighter at least for a month hence. Confidence has been restored to some extent amongst the buyers and owing to the advance in the import duty, many dealers believe that prices are not likely to go down to a great extent in the near future But the fear of pressing being resumed in places where it is now stopped does not give encouragement to the buyers, who are buying only sufficient quantity to replenish their stocks to satisfy their immediate requirements. The sellers are now presenting a firmer front to their customers which is checking trade on a free basis. There has been some anxiety with regard to finance, as the merchants have to find capital to pay for the deficit in the sale and the loss to be borne is pretty heavy.

Opinion has been divided as to the future course of the market Some merchants believe that the trade has taken a turn for the better and the inquiry for foreign cloths will improve as stocks in up-country are depleted, and the sentiment in favour of Khaddar and Swadeshi will gradually die-off in the absence of the strong personality of the leader of the movement. There are others, however, who are not so optimistic and hold the opinion that the present inquiry is only of a transient nature, and that the Swadeshi movement has had such a hold on the masses that the programme will not be abandoned for the time being. The purchasing power of the buyers has been greatly reduced owing to the economic position and this has been aggravated by the rise in the duties on the necessities of life, which must first be provided for, before the attention can be turned to the purchase of cloths. The stringency in the money market and the absence of the usual credit amongst the dealers will tend to restrict trade and reduce the consumption. Besides this, there is the constant fear of a material decline in the prices of cloth in the Manchester market. The wages are likely to be reduced and the bleaching charges are also to be cut down, and the Lancashire manufacturers will do their utmost to capture the lost trade.

Efforts have also been made to circulate in Manchester concrete proposals for the profitable employment of capital here, in order to retain a hold on the trade of India. Three ways of getting into the Indian trade have been suggested, viz, (1) Equip and build a new mill out here, (2) Buy a going concern out here, and (3) Transfer second-hand machinery out here, which in all probability would be better than what it is out here at present, as the latter has been running night and day since 1914, and it is estimated that the yield of profit on one's outlay would be 16½ per cent. during the boom or normally 8½ per cent. Some of the big combines in the subsidiary trades—such as dyeing, bleaching and printing, have been advised to erect works here, and by working the mill at first for spinning coarse counts and waving coarse cloths, gradually put down bleaching and dyeing plant, and eventually combine all processes, aiming ultimately at making cloths in India, which the native mills could not compete with. There are also signs of another competition from a different quarter in the near future. It is reported that some firms having German connections have of late been showing some activity and are bent upon competing with Lancashire and Japan in the piece-goods trade. The result of this is left to be seen.

An important point as to whether, in a suit upon a dishonoured foreign draft drawn in a foreign currency, the rate of exchange to be adopted should be the rate at the due date of payment or the rate at the date of juidgment, has been decided by the Hon Mr Justice Marten in the case of Messrs Muller Maclean and Co., Ltd, vs. Messrs. Kaderbhoy Mulla Esmailji. The plaintiffs had contended that the words "date of payment" meant the date of actual payment, but His Lordship held that the rate of exchange ought to be calculated as at the date of dishonour, as the words must be construed as referring to the date which all parties contemplated as the date of payment, viz., the maturity of the bill.

In the local market, Manchester Grey Shirting have been steady. Drills have shewn some improvement, but the position of Grey Jacconets has shewn very little change. White Shirtings have shewn some improvement. 27 inches Nainsooks worth Rs. 3-6 to Rs 4-8 per piece continue to be in demand at higher rates. There has also been good retail inquiry for 34 and 38 inches superior quality Nainsooks of the value of Rs. 7 to Rs. 9. In Mulls the Chief attraction has been 39 inches by 20 yards Gold End styles at from Rs. 9 to Rs. 9-14 per piece and 58 inches by 20 yards Red End Mulls at Rs. 9-10. Sacharilla Heading Mulls in ranges of 40, 45, 50 and 555 inches by 19 yards costing Rs. 7-8, Rs. 8-8, Rs. 9-8 and Rs. 10-8 have been in better request The lower qualities from Rs. 6-8 to Rs. 9-8 have also been in good demand.

During the week under review the Home markets have been fluctuating but on the whole the Liverpool market has shown a slight improvement while New York market has displayed a continuation of downward tendency, and last quotations to hand register a great decline in New York market as compared with a week ago We believe in higher prices eventually and would therefore think it advisable to make purchases especially on breaks. FINANCE.

Money market was steady but not firm Call money was obtainable about 5 to 6½ per cent. Short deposit rates were about 6½ per cent. to 6 per cent. The Government have altered the rate or three to six months treasurry bills, which now yield about 5.3.4 per cent. against about 6-3/8 per cent. This proves the Government have been able to satisfy their immediate requirements. Bank rate is not likely to be lowered soon, but we can take it that the market has reached the top and the next move may be to 7 per cent. after sometime.

Very useful discussion has been going on in the Assembly on the budget, and the commercial public would welcome with great relief if substancial reductions are effected in the expenditure both Civil and Military. The next important topic of the day, both here and in England, is the resignation of Mr. Montagu as the Secretary of State for India, and nothing but praises are showered on him here. It must be remembered that although he tried his best to serve India, India did not get the best under his regime, for our finance has been so badly handled and the after-effect of his exchange and other policy, has left both the Government and the mercantile community into endless troubles and chaos.

Exchange was a steady market on firmer advices from Calcutta. Rice is now decontrolled, and it is quite possible that Java and Japan might be buyers, provided prices are normal. The tone is steady at the moment as the inquiry for bullion is less marked.

Gold has been a firm market with a good up-country demand of about 20,000 tolas a day. The stock is estimated at about three lakhs tolas. The total import of gold into Bombay this week, amounted to Rs. 63,80,203 in bullion and Rs. 290,054 in coins and 54 boxes.

Silver was steady with a fair demand for ready. The off-take is about 100 bars a day and the stock is estimated at about 3,200 bars. The total import of silver to Bombay during the week amounted to Rs. 10,74,195 in coins and 779 bars.

The Shanghai/London rate is 3/2 per tael, Hongkong/London 2/5¼ per dollar and Japan/London 3/2 3/8 per yen.

The American exchange on London dropped during the week to dollar 4.27½, on account of the political situation, but soon recovered and closes steady at dollar 4.34½.

SHARES.

The market reopened on Wednesday with a considerable rise in Cotton Mill shares. The activity was centred round Currims, Swadeshis, Nagpurs, Kohinoors and Sharpurjis. The "bull Coterie" spread a strong rumour that the Government have decided not to increase the excise duty, and that cloth and yarn were much better. "Tips" were issued from every corner to buy shares at the opening, with the result that everybody rushed in to cover short-sales, while some have gone the length of taking a bull position. We have often seen that whenever such a position is created—and it is generally engineered by the syndicates—the real sufferer is the general public, who get enticed by the "tips" and buy shares largely, while the bull "coterie" gradually unloads the whole stock they have been nursing for a considerable time.

The investing public will do well to keep out of the market and to unload their holdings, if any, for "cash on delivery."

In the miscellaneous section there is hardly anything important to report. Trams were steady round Rs. 110 on fresh batch of reports about the coming dividend. Tata Steel Deferreds were quiet round Rs. 215. Bank shares were steady, there being few sellers for Imperial Banks at Rs. 1,315.

It is reported in the market that four more members of the managing committee have

SHAHA SHIVAJI.

In these stirring days no more fit theme for the writing of a play could be chosen than the exploits of the Great Shivaji. The times of Shivaji were the times of the dawn of Maratha history and Maratha greatness. The text-books of history, written to order and for the consumption of the young school going children and boys, have besmirched Shivaji enough. These writers have not taken into consideration the odds he had to fight against, the difficulties he had to encounter, the traitors he had to overcome, in his one and all-consuming task—and a very patriotic task at that—of founding not only a Maratha Kingdom, which soon grew into an Empire, but of consolidating the different and warring Hindu chiefs and barons of the period. He had his vicissitudes; he had his days of elation and of depression, of conquest and defeat, but by the time of his death he had well and truly laid the foundations of a Hindu Kingdom. This is al digression. Mr. Tipnis, deftly woven these materials into an enthralling drama and called it Shaha-Shivaji. The Lalitkaladarsha Dramatic Company who have staged it deserve the thanks of the public for the way they have accomplished this delicate and difficult task. Shivaji's is an intriguing figure, what they call romantic, but the way it is presented to the play-goers leaves little to be desired. This dramatic company stands in the very forefront of Marathi dramitic companies and their staging of this opera has only added to their already high reputation. The stage setting, the costumes and all the other things which go to make up the success of a play are all that could be desired. The music also is good. The play is a patriotic one and emphasises the new accomplished fact of the union of the Hindu and Mussalman kings of Bijapur, and as such deserves encouragement. Mention must be made of the two accomplished actors Messrs. V. B. Pendharkar and S. N. Chanekar, who played the parts of 'Shivaji' and his consort respectively.

BOMBAY POLICE COURT.

"LAKHPATY" CASE.

At the Mazagaon Police Court, before Mr. D. N. D. Khandallawalla, Additional Presidency Magistrate, Mr Ahmohomed Lakhpaty charged Yoosof bin Essa and Abdul Karim Essa, Arab horse trainers with causing grievous hurt on January 20 last The complainant is the proprietor of the "Lakhpaty Sporting News."

Mr. S. G. Velikar and Mr. Vicaji F. Vicaji, Barristers-at-Law, instructed by Messrs. Kanuga, Soloman and F. J. Patel, pleaders appeared for the complainante; while Mr. Indravadan Mehta, Barrister-at-Law with Mr. Gadkeri, pleader, defended the accused.

The facts of the case have already appeared in these columns.

In delivering judgment, His Worship observed that he found both the accused guilty on the charge of assault. The complainant had brought a false charge of causing hurt with a knife against the accused. The offence committed by both the accused was a simple assault and he refused to believe the complainant's story of his being assaulted with a pen-fnife. He, therefore, convicted the accused and sentenced them to pay a fine of Rs. 200 each.

A CASE OF ROBBERY.

At the Mazagaon Police Court, before Mr. D. N. Khandalwala, the Acting 5th Presidency Magistrate, Deputy Inspector Naden charged one Kamruddin Bohra and Ahmedally Ebrahimji with robbery, of Rs. 260 and a silver watch, etc., on the 25th of February, 1922, near Love lane, Byculla belonging one Moolji Dharamsay, the complainant. Mr. Sohrab B. Banaji, Bar-at-law defended acqued No. 2 Ahmedally Ebrahimji.

The prosecution story was that Mulji Dharamsey the complainant left Crawford Market on the evening of the 25th of February at about 7-30 or 8 p.m. On his way he met accused No. 1 Kamruddin, and they both hired a Victoria in order to go to Lalwadi where the complainant lived. Accused No. 1 Kamruddin said he lived at Byculla and wanted to got down near the Victoria gardens. So they both hired a Victoria for Rs. 2, each to pay one rupee. As the Victoria came near Pydhowni, accused No. 2 Ahmedally who was passing on the road was called by Kamrudin accused No. 1. Soon after Ahmedally, accused No. 2, got into the carriage and Kamruddin took out a handker. chief from his pocket and held it before Mulji's face. Within a couple of minutes complainant Mulji began to feel giddy and soon afterwards became unconscious. According to the complainant, he found himself lying in Love Lane at about 10-30 the same night, when he recovered his senses. Complainant thereafter went home and found that he had lost Rs. 260 which he had with him together with his watch, and three receipts for three race betting tickets which he had bought from a Bucket Shop near Crawford Market on Saturday afternoon. On the morning of the 26th at about 7 a.m., complainant went to the Bucket Shop keeper, Mahomed Karim, and informed him about his missing receipts. The Bucket shop keeper took down Mulji's complaint and asked him to go. About an hour after a Bhangi boy came with a shit, i.e. the one of betting receipts. It bore Mulji's name. Mahomed Karim, the Bucket shopkeeper, thereupon asked the Bhangi boy where he brought the receipt from. The Bhangi boy pointed out Kamruddin accused No. 1 who was standing outside the shop at a short distance. Mahomed Karim and his servant ran after No. 1 who was atempting to run away but was subsequently arrested by the Bucket Shopkeeper and handed over to the Police.

The Police subsequently searched and the house of accused No. 1 and found in his possession Rs. 160, the watch belonging to the complainant and the other receipts bearing the complainant's name.

The complainant in his cross examination admitted, that he had taken some wine that evening. He also admitted that the accused No. 2 Ahmedally, was hardly two minutes in the carriage and that he could not say for certain that Ahmedally was the man who was called by Kamruddin, accused No. 1. Accused No. 2's defence was that he was not an associate of Kamruddin and that Kamruddin had given the name of accused No. 2 as his Associate to the Police out of enmity. No one identified Ahmedally and that nothing was found in his possession nor was he present at the time when accused No. 1 was arested by the Bucket shopkeeper. As there was no evidence against accused No. 2, he was discharged by the Magistrate; whereas the charge of robbery was framed against Kamruddin, who subsequently pleaded guilty to the charge. His Worship convicted and sentenced accused No. 1, to four months' rigorous imprisonment.

MISCHIEF AND TRESPASS.

At the Esplanade Police Court before Rao Bahadur Chunilal Setalvad, Acting Chief Presidency Magistrate, Inspector Dalton causing damage to Dr. M. T. Anklesaria's dispensary to the extent of about Rs. 2,000. Mr. Finan conducted the prosecution, while Mr. S. B. Kapadia, pleader appeared, for Dr. M. T. Anklesaria, the complainant, and Mr. Godino, pleader defended the accused. The facts of the case have already been reported in these columns.

On the case being called out His Worship enquired of Mr. Kapadia whether there was any chance for settlement since the parties concerned in the case were related to each other.

Thereupon, Mr. Kapadia said he had been trying his level best to bring about a settlement. He had arrived at certain terms of the settlement, and the only question which now remained to be considered was about the damage done to the dispensary.

Magistrate:—"It is a very unfortunate case. I hope the parties will come to a settlement."

Mr. Kapadia:—"Sir, as a matter of fact we have agreed to certain terms, but the amount of damage remains to be settled."

Magistrate:—"If you wish I can meet the parties in my Chamber if Dr. Anklesaria agrees." Mr. Kapadia stated that Dr. Anklesaria had no objection to His Worship's suggestion.

It was, therefore agreed that the parties should meet His Worship with their respective pleaders in his chamber.

BOMBAY MUNICIPAL ACT.

REFERRED TO SELECT COMMITTEE.

COUNCIL PROCEEDINGS.

The adjourned meeting of the Bombay Legislative Council was held yesterday at the Town Hall, Council Hall, Sir N. G. Chandavarker presiding.

At the outset on the motion of Rao Saheb Harilal Desaibhai seconded by Mr. Hayward, the Home Member, it was resolved to send a respectful and loyal farewell message to H. R. H. the Prince of Wales through H. E. the Governor.

MUNICIPAL ACT.

Discussion on first reading of the Bill VII of 1922 (a Bill further to amend the City of Bombay Municipal Act, 1888) was then continued.

Mr. S. K. Bole was indulging in manuscript eloquence when the Hon. President remarked that the Hon. Member should face the Council and not bury his face in the paper. Mr. Bole supported the Bill and said Government had not provided any seat so far for the depressed classes.

President: It is a matter of the past. Let by-gones be bye-gones. Government have given a wide franchise now.

Rao Saheb Dadubhai Desai gave his support to the Bill and said it was a matter of regret that the Government had delayed municipal reforms so far. In the mofussil the municipal franchise was only eight annas and he thought if that principle was adopted in Bombay the franchise would be still more universal. Bombay city was not backward educationally and he was sure the voters would give a good account of themselves.

ENFRANCHISEMENT OF WOMEN.

Mr. S. T. Kambli congratulated the Government for giving for the first time in the history of the Presidency franchise to women.

Mr. Kanji Dwarkadas in supporting the Bill said the franchise should be reduced to Rs. 5, so that the labour class and depressed class may take full advantage of it and send their own men.

Mr. Purshotamdas Thakurdas said the Government were going from one extreme to the other. The first extreme was the franchise extended to the landed proprietors, assessment of carriages and graduates. The second extreme was a franchise of Rs. 10. He however thought the Select Committee would give due consideration between the two extremes.

Mr. I. S. Haji in supporting the Bill said the Bill was not at all rushed through in a hurry. The public and the Municipal Corporation had ample time for consideration. He was sorry however that the right of Justices of the Peace and Graduates was taken away.

BILL REFERRED TO SELECT COMMITTEE.

The Bill passed the first reading and it was sent to a Select Committee of the following gentlemen:—

Messrs. Dumasia, Kanji, Bole, Haji, Palahajani, Thomas, Purshotamdas Thakurdas, Dr. Dadachanji, Rao Bahadurs Chitale, Kale, and Khan Bahadur Shaikh Ghulam Hussain Hidayatullah.

The Select Committee was asked to make its report before the next Session.

NEW CADRE OF SUBORDINATE JUDGES.

Rao Bahadur G. K. Chitale then moved the following resolution:—

"This Council recommends to His Excellency the Governor in Council that immediate steps be taken to vest criminal jurisdiction purely in the judicial officers without any executive duties, controlled in all matters, including their postings, salaries and promotion, by the Sessions Court and this Council recommends that the change above recommended be effected by strengthening the cadre of subordinate judges by creating a grade of Rs. 200 per mensem and by appointing full-time resident magistrates of the first class out of the cadre of the subordinate judges; also by investing with first class magisterial powers such subordinate judges whose time is not fully occupied with civil work."

In support of his resolution Rao Bahadur Chitale said that the legal training of the Sub Judges was of a much higher order than the ordinary Magistrate's. If they got summary power they would dispose of cases more speedily to the satisfaction of the masses.

M. H. W. HAYWARD.

Mr. H. W. Hayward, the Home Member sympathised with the mover of the resolution and said a very definite and great question, was put before them, viz:—whether the Subordinate Judges or Officers of that stamps were to be taken as Magistrates or whether they should continue recruiting their magistrates from the executive officers. If the resolution was accepted it meant a definite and distinct departure in the matter. He therefore welcomed the opportunity of hearing definite opinions of both the official and nonofficial members of the pros and cons of this scheme. There was just one point however that he would like to put before the house, The District Magistrates were the controlling authority of the district in the matter of distribution of magistrates. They were also charged with statics of magistarial work. If the scheme was even partially introduced it would still leave a large para of the executive work in the hands of executive officers. Besides there was a great deal of difference between trying civil cases and trying criminal cases.

DISCUSSION ADJOURNED.

Mr. Shamrao Pandurang Ligade, a member from Akola made a lengthy speech in Marathi and supported Rao Bahadur Chitale. He said Judges trained both in civil and criminal

PRINCE AT KARACHI.

(FROM A CORRESPONDENT.)

KARACHI, March 17.

H. R. H. the Prince of Wales reached Karachi, his journey's end in India. At 9-30 the royal train steamed into the cantonment station where he was received by the Governor, leading civil and Military officials, Ruling Princes and Chiefs who had been acting as Honorary A. D. C.'s Sir John Wood, Political Secretary, Colonel Crowford Stuart representing the Viceroy, the Judicial Commissioner and the members of the Indian Legislative Assembly. Outside the station a guard of honour was drawn up by the second battalion York Lancaster Regiment which the Prince inspected. Walking up to the Royal dais he received the welcome from the local Municipality. The President, of which gave an account of the city's commercial development and hoped it would have been possible for the Prince to inaugurate the Sukkur Barrage Scheme so that his name might have been identified with the life of this province. They hoped the Prince's visit had been extremely pleasant. The Prince then replied to the address. (Here take speech.)

His Royal Highness was then introduced to the Commissioner. After which he left amidst ringing cheers from hundreds of spectators seated in the specially erected galleries, motoring to the Town Hall. The Prince presented colours to 126th Baluchistan Infantry and unveiled the Baluch War Memorial. REPLY TO MUNICIPAL ADDRESS.

(ASSOCIATED PRESS.)

KARACHI, March 17.

H. R. H. the Prince of Wales, replying to the address by the Karachi Municipality, said:—It is a special pleasure to me to see your city because of the prominent part which it played in the war and its close association with the fine work of India's fighting forces. I entered India by one of its oldest gateways. It is fitting that should leave it by one of its most modern. For rapid growth of your city and population your ever expanding export trade and your growing importance as a focus of communications are directly the result of one of the most striking achievements of the British rule in India. Your expansion is the outcome of that triumph of engineering and colonising skill, which transformed millions of acres of desert into a granary of India, which added in no small measure to world's stock of food grain and clothing and peopled the waste place with a happy and prosperous peasantry. I read in this a symbol of good which the united effort can secure in India and in your rapid growth. I find good augury for that high position which India may fill in the commercial world of the future.

UNVEILING OF BALUCHI WAR MEMORIAL.

(ASSOCIATED PRESS.)

KARACHI, March 17.

His Royal Highness the Prince of Wales, unveiling the Baluchi War Memorial at Karachi, said, "I esteem it a great privilege to unveil this memorial to over one thousand officers and men of Baluchi group of the Indian Infantry, who laid down their lives for their King and Country in the Great War. Three of these regiments are closely connected with my family by special ties. Whether duty called them in France, Egypt, Paletsine, East Africa, Persia, Waziristan or on the Afghan frontier the men of all these units, one and all, fought with characteristic courage and upheld the glorious traditions of their regiments and of the Indian army to which they belong. In unveiling the memorial, I trust that it may long keep their name, their sacrifice and their brave deeds before the future generations. May it inspire those that come after to work for their King and the Country in that spirit of loyalty and devo-

HOCKEY IN BOMBAY.

AGA KHAN TOURNAMENT.

POONA RANGERS (3) BEAT B. E. S. OLD BOYS "B" (2)

The meeting between these two teams in the first round of the Tournament proper on the Bombay Gymkhana ground yesterday produced a keen and interesting encounter the visitors winning a well-deserved victory by the odd goal in five. The visitors were obviously the superior quintette both in point of weight and experience, though the Byculla boys were by no means outclassed in any department of the game. The victory of the Poona team was due to their backs more than to their forwards for the contest seemed to be decided on the issue of who could keep off the goals and not who scored the most. As a matter of fact the losing team, were always hovering in the vicinity of the Rangers' goal and on the whole their goalie had a really something time of it. Mention must be made, of McKenzie, the Poona right back who frequently elicited unstinted applause from the galleries for the magnificent defence tactics he developed.

DETAILS OF THE GAME

Play began five minutes after the scheduled time. Right from the bully-off the Byculla Boys broke away dodging the Poona defence, which for once, was almost caught napping. The B. E. S. centre-forward (who was responsible for the two goals on his side) got on excellent opening but spoiled it by erratic shooting. They might still have scored a goal from the rebound off the goalie's pads but the latter kept his charge well and averted disaster by driving away the ball with a high kick.

The game became very interesting at this stage and two almost 'sure' goals were saved by sheer chance. The B. E. S. centreforward, who was doing a deal of running, sprinted down the right and centring square by made an opening for the left inner to shoot but the shot went an inch too high and the Byculla team lost the chance of drawing first blood. The counter-attack which followed mechanically showed an even more miraculous save for Graveston, the Poona left inner taking the ball off a long pass from Massey found the field all to himself with only the goalie to oppose him and dodging him also he was just on the point of directing the ball into the netted space when he tripped over and the next thing was a bully off at twenty-five. The efforts of the Poona forwards were, however, soon rewarded in an unexpected manner. In one of the innocuous long passes from corner to corner which the Pooaa wingers indulged in, the B. E. S. left back had the want of thought to stop the ball just infront of the goal and Graveston who was lying handy promptly shot in the goal taking the goalie by surprise. (1—0). on the run of the play the B. E. S. were beset with adverse fortune at every step for in an attempt to retaliate their centre-forward, Allison, all but went through, literally, for though his shot beat the Poona custodian completely he was penalised for sticks. Nothing dainted they still persisted, but even when the whistle went for temporary cessation of hostilities, the score was unchanged (1—0) the Poona Rangers leading.

Right from the re-start the Byculla team were now improved upon. But the B. E. S. soon equalised through Allison who sent in a ripping low shot from a melee in front of the goal. (1—1). Matters thus having been brought level a ding-dong game ensued till the B. E. S. again saw the game slipping out of their hands due to a lead which the Poona team soon established through another goal. In one of the attacks the B. E. S. goalie showed clearly the curious psychological phenomenon of "shock" in apprehension—goal shock to be in point—and Graveston shot the ball into the net practically without opposition. (2—1). Allison, by a brilliant effort, again equalised amidst cheers from their supporters. But the outsiders were destined to emerge victorious from the fray, for just when matters looked like warranting a re-play, the Byculla Boy's defence suddenly broke down. Stevens gave an excellent opening to Graveston at right corner from where he scored brilliantly with a splendid angle-shot. This decided the play coming as it did just on the eve of the closing whistle the Byculla team had no time to make even a semblance of an attempt at neutralising the lead.

The result was:—

Poona Rangers ..... 3 goals.
B. E. S. Old Boys "B" ... 2 goals.

The teams were:—

Poona Rangers:—Goal: Hawkins; Backs: McKenzie and Cazalett; Half-Backs: Tompkins, Massey and Church; Forwards: Stevens, Graveston, Hastings, Jones and Mosdecai.

B. E. S. Old Boys "B":—Goal: Burnett; Backs: Braganza and Fuller; Half-Backs: Selkirk, Willis and Pervis; Forwards: Critchell, Jackson, Allison, Jarmon and Jepson.

Referees:—Mr. D. K. Kapadia and Capt. Tarbottom.

TO THE EDITOR OF "THE CHRONICLE."

Sir,—The Secretary of the Sugar Corporation of India Ltd. has notified to convene an extraordinary general meeting of the shareholders on the 29th instant for proposing an extraordinary resolution to the effect that the said Company will be voluntarily wound up. Only a couple of days ago, Sir Alfred Chatterton representing the Tata Industrial Bank in his evidence before the Indian Fiscal Commission had urged protection to the extent of 50 per cent. "advalorem" on sugar and it was a sort of relief to those interested in the well-being of the Company that some practicable work might have been in view of the directors and the promoters, to which this demand for protection appeared to be a legitimate and a necessary prelude.

Will the shareholders seriously examine the reason why the fate of such a fine industry like the present one, with vast possibilities and a promising future ahead had come to such a pass as to induce those responsible to come to a decision to shut up the shop abruptly and all of a sudden.

In an agricultural country like India, to say that no land or sufficient water or any such necessary accompaniment that can ensure the steady growth and yield of sugar cane, is not available is to deny milk in a milch-cow. Whatever it may be, the directors will, it is to be hoped, give a satisfactory explanation to the shareholders at the proposed meeting, clearly stating the reasons which led them to take such a disappointing view of the situation. The shareholders would also like to know the number and pay of the experts imported into this country to manage this industry and the direction in which they have worked up-to-now and with what results.—Yours, etc.

WILL LORD READING RESIGN?

Specious and plausible are the arguments now being advanced by those who would have Lord Reading save the Coalition from the disastrous results of its action. But the salvation of the Coalition can only be bought by the Viceroy at the price of the self-respect and that of India. No other Viceroy who ever came out to India would have brooked the insults ventured upon by Lord Curzon in his letter to Mr. Montagu. True, that letter was a private one. But it was not Mr. Montagu who ultimately gave its mischievous and insulting contents publicity. Mr. Montagu at Cambridge merely referred vaguely to the letter as typically Curzonian—typically the letter of a conceited man who seeks by dint of bluster and pomposity to bulk large in the world's affairs. It was Lord Curzon himself who read out that letter in public, and gave its contents to the world, word for tactless, bullying word. By his action, Lord Curzon added publicly to the affront he and the Premier offered the Viceroy and the Government of India in forcing Mr. Montagu to resign. Is Lord Reading content hereafter to be regarded as a departmental superintendent of a subordinate branch of His Majesty's [illegible]rnment? Is he content that th[illegible] and people of India shoul[illegible]he Vi[illegible]y and the repre[illegible]Kin[illegible]ror? If this b[illegible]d prestige [illegible] the Vic[illegible] counted. [illegible] India [illegible] touching[illegible] any man of self-respect—[illegible]itioner—can in future sentative. And yet these very people advise Lord Reading to pocket the insults levelled at him as Viceroy and at his Government by a vain little person aping Jovian dignity six thousand miles away.

If Lord Reading remains in office, we fear that in the future no man of first-rate ability will care to accept the post. For, unless Lord Reading resigns, the principle for which Lord Curzon and Mr. Lloyd George stand will become the established principle. Unless Lord Reading resigns, Viceroys who may come after him must be content to be little better than subordinate officials who may be hectored by any garrulous Foreign Minister. Lord Reading, to his honour, is a self-made man. By dint of sheer intellect and ability he has forced his way to his present exalted position. Will he brook being referred to by Lord Curzon as though he were some lackey of the noble Marquis? Nor is the Foreign Minister's latest insult the only,—or indeed the chief—inducement that must compel Lord Reading to resign. It was the Viceroy, acting on the advice and with the full concurrence of the several Provincial Governors, whose action brought about Mr. Montagu's dismissal. Lord Curzon's later insults only add point to the insult levelled at the Viceroy, the Government of India, and the several Provincial Governors by the Premier's action in dismissing Mr. Montagu. For Mr. Montagu acted only on the urgent advice of the men on the spot. Surely, they cannot allow without protest the Secretary of State who trusted them implicitly—who acted as they urged—to be insulted at the whim of a self-sufficient Premier, his Cabinet and his Foreign Secretary. When Mr. Lloyd George called for Mr. Montagu's resignation his action amounted to a call for the resignation of the Viceroy and of every single Governor associated with Lord Reading in the famous cable to Mr. Montagu. And protest from those who were insulted with Mr. Montagu, can take only one form. Whether or no the Provincial Governors see fit to act with him as the least of the Dominions Governors would have acted under like circumstances—as the veriest petty Governor of some obscure Crown Colony would have acted—Lord Reading owes it to himself to resign.

The London "Times"—terrified, doubtless, lest the consequences of Lord Reading's resignation extend far beyond the downfall of the Coalition Cabinet—even perhaps to the grant of *Swaraj* to India—has declared that "even to hint that he should be recalled is unsettling and pernicious." If it be pernicious to insist that an insult to the Viceroy such as the Coalition Cabinet has administered is an insult to the Muslims of India and to the Indian people, and one that cannot and must not be allowed to pass without emphatic (if strictly constitutional) protest, we must plead guilty to the charge of writing very perniciously. For even if it should transpire that Lord Reading decides weakly to desert his guns, Mr. Montagu, and the people of India by remaining in office under the humiliating conditions now tacitly enforced upon the Viceroy,—we are confident that the people of India will not rest until the bare right to make their voices heard in the councils of the world is recognised—and gratefully recognised—by a chastened British Foreign Minister and Cabinet. Lord Curzon and Mr. Lloyd George spoke strongly and eloquently in favour of India's claim to immediate *Swaraj* when they betrayed so tactlessly, so blunderingly, the contempt in which they hold a fettered land and the opinion and advice of the very satraps they nominate to rule the country. Lord Reading and every single Provincial Governor have been party to the assurance given India that her position in the Councils of the Empire was an honoured and established one. But Lord Curzon and Mr. Lloyd George now betray the assurances given by the men sent to govern India. How can the latter remain in office any longer? To them, their several Provincial Councils and advisors will surely say:—"You have deceived us! India is to remain a humble servant in the mansion of the British Empire over which Lord Curzon pretends to preside. India's Viceroy and the representative of the King-Emperor has been practically described as the mere head of a subordinate department of the Government." What reply can the Viceroy and each Governor give to these words when they are spoken by their Councillors? When the Indian National Congress spoke in this strain, the Congress was told by Government spokesmen that it misrepresented facts. But now the Moderates and the co-operators must speak the very same words. And since Lord Reading cannot reply other than by an admission that he too has been betrayed and misled by the British Government, his only [illegible]urse to-day is clear. Indeed, looking [illegible]nd the resignation of the Viceroy [illegible]ve hold to be inevitable, we fail [illegible]y any man of self-respect—[illegible]itioner—can in future consent to accept office until Lord Curzon and Mr. Lloyd George have publicly recalled the expression of the humiliating terms under which a Secretary of State for India, a Viceroy, or a Provincial Governor must serve. But this remains a question for discussion by the people of India to-morrow. To-day, co-operators and non-co-operators, they look to Lord Reading to prove the sincerity of his promises, his assurances of sympathy with the people he represents. We look to him at long last to show the Muslims of India that his zeal on behalf of their religious beliefs is at least great enough to establish the great and moral precedent that a Viceroy of India sets the truth and the dearest wishes of three hundred and fifty millions of human beings above the fleeting ambitions of a Capitalist Coalition Cabal.

PRIMARY EDUCATION IN BOMBAY.

The report of the Schools Committee of the Bombay Municipality, of which we published a summary on Wednesday shows that during the past ten years the number of primary schools in the city as well as the number of pupils in them have doubled, while the Municipal expenditure has more than quadrupled. These facts must be held to be very satisfactory. But the edge of this satisfaction is somewhat dulled by the knowledge that the ciy has still much lee-way to make before it can aspire to stand in comparison with the educationally advanced cities of the West or of Japan. The total number of children of school-going age in this city is not definitely known, but in a total population exceeding a million, certainly their number cannot be less than 80,000, if it is not indeed a lakh. We have to-day a little over half a lakh of children in the Municipal, aided and unaided schools. The annual increase during the last decade has been fluctuating between two to three thousand. It is true that in 1920-21 the increase was about 4000. But unless the pace at which the number of schools has been increasing is also quickened appreciably, we shall not be progressing towards the goal of universal primary education with the speed we desire. The Municipality is ambitious of reaching the goal within the next decade, if not earlier, but with each year that passes the goal is seen to racede further and further like a mirage. The Schools Committee's present resort gives no indication of the lines on which it is intended to proceed in the immediate future. It is true there is a reference to "the preparation they (the schools?) are making for the success of Free and Compulsory Primary Education, when it is introduced in the City." But what this "preparation" is is nowhere described. The only hint of "preparation" one finds in the report is the appointment of four new members, two of whom are ladies, chosen from the general public outside the Corporation. The Committee expect that "the year, current or the next, will witness the regular beginning of Free and Compulsory Education, or preparation therefor, in some part of the city." But the exact lines of advance are left to be imagined by the reader. Why could not the Committee be more explicit and take the Corporation and the general public into confidence? Several months have passed since the Committee's report was drawn up, but the public have yet to see the signs of "preparation," they were asked to expect. Unless the Corporation itself displays greater interest and activity in the matter, the Schools Committee's plans and forecasts will remain pious hopes.

Notes of the Day

A Rebuke.

If the Coalition Cabinet and the Governments of the Allied Powers were pervious to a sense of shame, the latest announcement from Washington with regard to America's claim that she is entitled to a share in the German indemnities would bring a blush to the cheek of every covetous statesman. America now points out that she has not yet lowered herself to the mercenary level of the European Powers. She could, with as much right and excuse as any of them—with greater than most—join the throng of grasping people busy collecting Germany's reserve of wealth. But she very pointedly refuses so to demean herself. The latest official announcement from Washington very quietly explains that America does not intend to play the leech in the matter of German geld. She merely insists on the Powers realisi[illegible] that she might well do so. Of course[illegible]moral for the Powers who admit [illegible] right will be lost. They will [illegible]ontrast America's essentially forbearing and generous attitude with their own. How furious the original representation made by America has made the French Press is well shown by the cartoon which, according to Reuter, the Paris "Figaro," publishes. And in view of America's official repudiation of any desire to share in the spoils the "Figaro's" cartoon misses fire most ridiculously.

Another King.

We are not inclined to wax unduly jubilant over Reuter's brief message which tells us that the Sultan of Egypt has assumed the title of "King of Egypt" and has issued a rescript proclaiming the independence of the country. In the first place, we would like first to be told how far the independence claimed is actual. As to this we confess to misgivings bred of the very fact that the Sultan should change his honourable Eastern title for a Western one. While his predecessors were styled Khedives and were vassals in theory to the Sultan of Turkey, the present titular ruler of Egypt has been called the Sultan, since the theoretic state of vassalage to Turkey was repudiated—at the instance of Britain. Is the title of "King" any more honourable than that of Sultan? Does it signify any greater degree of independence? There are two other Eastern potentates rejoicing in a newly-acquired Western dignity of kingship—the King of the Hedjaz and King Feisul of Irak. The former is frankly subsidised by the Coalition Government. The latter is even more bound to the British Government which has elevated him to an alien and precarious throne and which will probably have to support him there. These instances do not augur well for the Sultan of Egypt's change of title. If Egypt be really independent well and good. We care not whether her ruler calls himself King or Pharoah. We may be sure the new King's people refer to him to-day as the Khedive or Sultan and will continue so to style him whatever outlandish title he may be pleased to assume under the guidance of Lord Allenby.

Official "Encouragement" to Shipping Industry.

On the motion of the Hon. Mr. Lalubhai Samaldas the Council of State has adopted a resolution urging Government to issue instructions to the departments concerned to give Indian shipping companies an opportunity of quoting for the carriage of Government and Railway materials from any ports of India and to give them preference if their quotations are approximate to that of other companies. That there should be any necessity at all to urge on the Government of this country to take steps of this kind in the interests of the indigenous shipping industry, is no doubt a reflection on the solicitude of the Government for the development and progress of the industry. But, unfortunately the circumstances are such that the Government of India stand in need of a strong reminder to them of their primary duty to the people of this country in this particular matter and the Council of State has conveyed the reminder none too early. In every other country the indigenous industries receive not only equal facilities with the foreign ones in competition with them but also substantial preferential treatment. But the experience of India's indigenous industries is different. They not only receive no preferential treatment, but even equal opportunities for competition with foreign industries are often denied to them. In a word they are Cinderellas in their own country.

O! for a Title!

Lala Jaishi Ram Saigal, who describes himself as "banker, import export commission agent and general merchant" of Amritsar, has forwarded to us a letter in which he recites, with a touching frankness that would have taken an official heart by storm, a score or so reasons why the "Benign Government" should confer on him a title. He does not specify which title exactly would suit his fancy, but apparently any title, even a Rai Sahebship or Rai Bahadurship, would satisfy him. Mr. Saigal favours us with a printed and bound volume of the testimonials which his distant and immediate ancestors had earned at the hands of officials "for services rendered." One of such services finds mention in this wise: "that my ancestors gave 7 lacs of rupees at the time of the Mutiny out of which 4 lacs were returned to them and the rest, *i.e.*, 3 lacs were given to the Government as Donation." This one service alone ought to make the Government literally eternally beholden to the Saigal family in general and Mr. J. R. Saigal in particular. Mr. Saigal beseaches us most pathetically to "publish this letter of mine in full for the information of the higher authorities" and to "enquire from them if the above-mentioned qualifications are not sufficient for the Government to accede to my request at this ever memorable time in Indian History, and what else is to be expected from me to qualify me for the same." Though for reasons of space we regret we cannot comply fully with Mr. Saigal's request for publishing his letter, we gladly give the fullest publicity to the following among other distinguished and meritorious services rendered by Mr. Saigal, in the earnest hope that they will catch the eye of some high official who moves in the circles of the Simla and Delhi gods and that he will be able to induce the latter when they send down their next shower of titles, to let fall at least a drop on the devoted head of Mr. Saigal:—

"That in 1917 I gave useful assistance to the Police Department during the festivals of Moharram and Dossera.

That I collected War Loan during the great German War.

That at the risk of my life I rendered useful services during Martial Law in preventing the present agitation of "Hartal" vide certificates granted by the local police officers.

That similarly I have always tried my best to give every kind of help in sanitation, in preventing the present agitation, to Police, Vetry (sic), Hospital and Civil Department."

Mr. Saigal deserves at least a Rai Sahibship, if not the O. B. E., and we hope he will get it at the earliest opportunity and have his life's ambition fulfilled.

Irrigation.

Appendix 'L' of the Census Report for this Presidency gives statistical data with regard to "the effect of irrigation facilities on population of irrigated as compared with adjacent unirrigated tracts." That population should increase in irrigated regions was to be expected. The real utility of irrigation is demonstrated by the fact that while in the unirrigated villages of Indapur, the recent census shows a decrease in the population of 45 per cent. as a result of the famine of 1918, the irrigated villages seem to be but little affected, the decrease in their case being only 1.4 per cent. The Bhimthadi villages, which get the water first, had their population actually increased by 21 per cent. in spite of the famine. The people have always demanded irrigation and the demand has been met with extensive railway programmes. In this connexion it is interesting to note that the unirrigated villages of Diksal, Tarakwadi and Bhigoan, show heavy emigration in spite of their proximity to the railway. The Government in the almost feverish haste with which they have pushed on railway construction, forget the simple economic truth that it means no advantage to a village to be on the railway line if it has nothing to export. Irrigation, instead of preceding as it should, has followed the railway with the result that the latter has for many years been a heavy drag on the finances of the country. Mr. Lawrence in his Budget speech said that irrigation in the Deccan does not pay its way. Perhaps he has not yet heard that the Deccan cultivator, whose land, according to his estimate, has increased perhaps tenfold in value has also some harsh things to say about the ways of the Irrigation Department. Was it at the suggestion of the latter that Professor Knight of the Agriculture College hastened to demonstrate to the ignorant Deccan cultivators his novel theory that the more slowly and at longer intervals, sugarcane is watered, the richer is the harvest? The Finance Member, the Minister of Agriculture and the Sugar Committee said, "Bravo!" but the conservative Deccan cultivator remained a sceptic and demanded occular demonstration. Professor Knight told his audience that the sugarcane crop on the Manjri farm was not watered for forty-five days, but he counted without his host. A cultivator confronted him with the poser, "There was no irrigation water for the period you name, but what of the two and a half inches of rainfall?" Professor Knight evidently considered silence the better part of discretion. It is not enough that money is expended on irrigation but Government have to see to it that the cultivator reaps its full advantage.

King Edward Memorial Hospital.

The Hospital was started in Poona in 1915. During the year under report, it treated 420 maternity cases and 22304 out-door patients. The housing problem is not as acute at Poona as in Bombay, but in the former city middle classes and the poor find it difficult to provide a room for maternity purposes in their own lodgings. The hospital could with difficulty cope with the demand for maternity homes. The social environment of this country almost necessitates the services of women doctors to treat women. In this respect also the hospital met a much-felt public want. Another activity of the hospital is to train midwives. During the year under report it worked with a deficit of Rs. 1,272 and a deficit of Rs. 1,500 is expected to cover the working expenses of the current year. The Poona public will, we hope, generously respond to its appeal for funds.

IRISH TREATY BILL

SECOND READING IN LORDS.

LORD CARSON'S BITTER ATTACK.

[REUTER'S TELEGRAMS.]

LONDON, March 16.
Recd. 5 p.m., March 17.

The Government were again the object of a violent attack in the House of Lords by Lord Carson on the second reading of the Irish Treaty Bill, which was subsequently agreed to. Lord Carson bitterly asked how long such episodes as the murder last night of four members of the constabulary in the hospital in southern Ireland would be allowed to continue. He did not urge the House of Lords to throw out the Bill because he said the mischief was already hopelessly done. By giving Ireland a Navy and Army he said that Government was guilty of treachery to this and succeeding generations.

The outstanding feature of the speech by Lord Birkenhead was the insistence that not only was there no republic in Ireland as Lord Carson alleged, but the British Government would never assent thereto. He ruled it out in finality as for ever unacceptable. He expressed Government's disappointment and sadness at the divergence of opinion between two Irish sections which did not seem likely to be removed at an early date. British advisers in Ireland were confident that the pro-Treaty party would be returned at the elections by a majority, which would make them master of Ireland's destinies for a considerable period to come.

NAVY ESTIMATES AND CUTS.

(REUTER'S TELEGRAM.)

LONDON, Mar. 16.
Recd. 11-30 a.m., Mar. 17.

In the House of Commons Col. Amery, introducing the Navy Estimates, dwelt on the value of the Washington Conference as showing the increased capacity of the British Empire to give united effect to a single policy. He repudiated the suggestion of the Geddes Committee that twenty-one millions of the pre-Washington expenditure could be saved this year and that the Navy was overmanned, declaring that the present system of manning was absolutely essential to efficiency.

The total reduction effected in the estimates was fifteen millions and the savings resulting from the Washington Conference amounted to £15,200,000. He added that the things had been scraped to the bone and it was impossible to go further unless we wished to drop to the rank of a second or third rate power which our duty to our fellow subjects in the Empire forbade.

BANK OF ENGLAND.

(REUTER'S TELEGRAM.)

LONDON, March 17.
Recd. 11-30 p.m., March 17.

Mr. Edward Norman, at the half yearly meeting of the proprietors of the Bank of England yesterday, stated that the half yearly dividend had increased to six per cent., which was equal to twelve per cent. per annum. Since 1914, the rate had been ten per cent. per annum.

A stockholder suggested that the Charter should be revised and an ordinary limited company formed.

The Governor replied that they had better think two or three times before they varied from the traditions of the past.

TATA PUBLICITY'S APPEAL.

DISMISSED IN FAVOUR OF MR. MR. CAMPBELL HOWES

(REUTER'S TELEGRAM.)

LONDON, March 16.
Recd. 5 p.m., March 17.

The Court of Appeal has dismissed the appeal of the Tata Publicity Corporation to stay action against them by Mr. Campbell-Howes, Managing Director of the Corporation, for breach of contract.

LABOURERS' COST OF LIVING.

(REUTER'S TELEGRAM.)

LONDON, March 16.
Recd. 11-30 p.m., March 17.

The official Labour Gazette states that on March 1st the working-class cost of living was eighty-six per cent. above the cost in July 1914. This is two per cent. lower than on the 1st February, and is lowest since December, 1917.

MESSRS MONTAGU'S SILVER REPORT.

(REUTER'S TELEGRAM.)

LONDON, March 16.
Recd. 0-30 a.m., March 18.

Messrs. Montagu's silver report states that offerings from America during the past week have not been much in evidence owing to the weak exchange therewith: but continental supplies have sufficed to meet the demand. It is anticipated that purchases for Indian bazaars, which have been noticeable to-day, continue for shipment by next week's steamer, which is due to arrive [illegible] Bombay for the April settlement.

THE VACANT SECRETARYSHIP.

DERBY & DEVONSHIRE REFUSE OFFER.

EARL OF CRAWFORD---A POSSIBLE CANDIDATE.

(REUTER'S TELEGRAM.)

LONDON, March 16.
Recd. 0-30 a.m., March 18.

Lord Derby's refusal to accept the Secretaryship of State for India is now definite. The names of the Earl of Crawford and Viscount Peel are mentioned as possible candidates to-night.

LONDON, March 17.

The morning papers state that the Duke of Devonshire has also declined the Secretaryship, which is being offered to the Earl of Crawford.

DEVONSHIRE IN THE RUNNING.

(REUTER'S TELEGRAM.)

LONDON, March 15.
Recd. 2-0 a.m., March 17.

Consequent on the reports that Lord Derby has declined Indian Secretaryship the name of Duke of Devonshire is again mentioned.

ARREST OF INDIAN AGITATORS.

GOVT. TO CIRCULATE WHITE PAPER.

(REUTER'S TELEGRAM.)

LONDON, March 16.
Recd. 0-30 a.m., March 18.

In the House of Commons at question time. Mr. Chamberlain stated that Government intended to circulate a white paper in the near future regarding the arrest of agitators in India.

TURKISH CONCENTRATION NORTH OF IRAQ.

MR. CHURCHILL DECLINES TO MAKE STATEMENT.

(REUTER'S TELEGRAM.)

LONDON, March 16.
Recd. 0-30 a.m., March 18.

Replying to Commander Curzon, as to whether a Turkish concentration was taking place north of Iraq, Mr. Churchill stated that Government were fully alive to the aspect of the question to which Commander Curzon had drawn attention, but that it would not be in the public interest to make a further statement at the present juncture.

THE KENYA PROBLEM.

AGREEMENT BETWEEN COLONIAL AND INDIA OFFICES.

(REUTER'S TELEGRAM.)

LONDON, March 16.
Recd. 0-30 a.m., March 18.

Replying to Col. Wedgwood, Mr. Churchill said that no exact interpretation of the resolution adopted by the Imperial Conference as regards equal rights of all British had been attempted. Indians' rights in Kenya must be considered in the light of the interests of the four existing communities. The determining factor was the welfare of Kenya as a whole. Col. Wedgwood asked if divergencies of opinion on this matter between the Colonial and India Offices had ceased since Mr. Montagu's resignation. Mr. Churchill said that differences between those concerned had been reduced to a very narrow compass prior to the resignation of Mr. Montagu.

(From Our Correspondent.)

"PERNICIOUS".

HINT TO RECALL LORD READING.

DUTY TO UPHOLD & STRENGTHEN HIM.

"TIMES" ON BRITAIN'S TASK.

TO CONVINCE INDIA OF NO CHANGE IN POLICY.

(REUTER'S TELEGRAM.)

"The Times" leader, on account of the effect of the Montagu incident upon Indian opinion, as given by its special correspondent in India, concurs with his view that nothing could be more unwise than to permit retirement of Lord Reading at present, and, despite misgivings in regard to the firmness and determination of the Viceroy, it is the duty of all to uphold and strengthen him. Even to hint that he should be recalled is unsetting and pernicious.

It says that in view of the Indian distrust of British good faith, we must endeavour to convince Indians that our intentions are unchanged, and that we sincerely intend to keep our pledges. The habit of vacillation, which has so long paralysed our Indian policy, must be dropped, and the Government of India must be freely and constantly consulted. Its views must receive consideration they deserve, but in the politics of India, the old essential and constitutional principle of co-ordination must be revived immediately, and consistently upheld.

INDIAN FISCAL AUTONOMY.

PLEA FOR CURTAILMENT OF FREEDOM

(REUTER'S TELEGRAM.)

LONDON, March 16.
Recd. 0-30 a.m., March 18.

Interviewed by a representative of the "Manchester Guardian", Mr. Robert Waddington, M.P., declared that the interpretation of the Government of India Act by Mr. Montagu and the Select Committee on the Bill had widely exceeded the terms of the Act, which nowhere provided that India should have definite fiscal autonomy. A serious empire issue was involved by the unfriendly attitude of India in imposing duties on British goods to the disadvantage not only of British manufacturers, but also of Indian consumers. Parliament, by a preamble of the Act, reserved to itself full responsibility for the welfare of the masses in India. The time was opportune, considered Mr. Waddington, to carry out the responsibility, instead of the sole trusteeship being in the Indian Legislative Assembly. Britain was a joint trustee with India, indeed the predominant partner in trust.

MR. BASU'S VIEWS

(ASSOCIATED PRESS.)

CALCUTTA, March 16.

Interviewed in connection with Mr. Montagu's resignation, Mr. B. N. Basu said that the late Secretary of State had been a real wellwisher of India He was not certain if Mr. Montagu's resignation, under unusual circumstances, would mean a change of policy at White Hall. It was unfortunate that at a time like this, two out of three Indian members of the Secretary of State's Council, Mr. Aftaf Ahmed Khan and himself, should be away from England. He attributed the Britishers' change of attitude towards India to the unsatisfactory nature of welcome accorded to H.R.H. the Prince of Wales and advocated sending a small deputation to England to interview public men and the Press there. Members need not be confined to any one party. The pressing need of the hour was the combination of Extremists' idealism with capacity for constructive work.

REPRESSION IN U. P.

A RETROSPECT.

III

The following is the fifth of the series of articles in the course of which the Hon'ble Mr. Chintamani reviews the results of the repressive policy of the United Provinces Government during the past year.—Ed., B. C.

There is a curious and unfortunate tendency among the young educated men in the United Provinces to ignore Mahatma Gandhi and his message and to attribute the present political unrest in the Province to the Non-co-operation movement. The conditions of life and thought among the educated classes in the United Provinces are, in fact, more complex than in the Punjab or Bombay. The Province is the home of the Taluqdars and the Kayasthas, and the United Provinces Government has always been more solicitous about the welfare of the Taluqdars than about that of the cultivators. The Taluqdars have been the favourite class of the Government and the Kayasthas have been the favourite class of the people in the Province. The Taluqdars have been the favourite class of the Government because it is through them that the Government has been able to govern the country. The Kayasthas have been the favourite class of the people because they have been the most educated class in the Province. DEMANDS FOR GRANTS.

DISCUSSION IN ASSEMBLY.

ARMY DEPT. REDUCTION.

(Associated Press.)

DELHI, March 16.

Sir Willian Vincent, leader of the House announced Government business for the next week, which will include the consideration of the Finance Bill on Monday and Tuesday and the introduction of Cantonment House Accommodation Bill on Wednesday.

GENERAL ADMINISTRATION.

The House then proceeded with the discussion on demand No. 13 for Rs. 76,77,000 under general administration.

Mr. Ginwala, chief whip of Democratic party moved for the reduction of Rs. 100 in the salary of the second personal stenographer to the Governor-General. Mr. Ginwala said this motion was one of a series of similar motions. He proposed to move under all Departments of the Government of India with a view to undertake general review of the administration and to show how in practice the Government of India Act had been worked different to what was intended by the Imperial Parliament. The Prime Minister had declared in the House of Commons the other day, that if reforms in India were a failure it would not be attributable either to the British Parliament or to the Government of India. In view of this pronouncement, he thought it was necessary, that the House should declare that if the reforms were a failure and there were indications to some extent that they were becoming a failure, then the failure would be attributable not to the Legislature or the people of India but to the British Parliament and the Government of India due to the manner in which they had interpreted the Reforms Act. He quoted the instance of the issue of the recent Malabar Ordinance by the Governor-General thus encroaching upon the Legislative privileges of this House.

President:—"I may remind the Hon'ble Member that he is proposing reduction in the pay of the personal stenographer."

Mr. Ginwala:—"Yes. It is because the Governor-General exercised more power than the Government of India Act allows him, that he requires two stenographers." (Laughter.)

President:—"The Hon'ble Member would have to exercise his ingenuity lettle further before I can allow him to go on.

The Home Member said little did he expect that the motion for reduction of the salary of a stenographer would be utilized for the kind of attack Mr. Ginwalla was making. Personally, he would like if the attack was made in a somewhat more open and frank manner. The necessity for two shorthand writers for the Viceroy was felt because His Excellency worked from early morning till late at night, and it was extremely difficult for one stenographer to cope with the work.

REDUCTION OF TRAVELLING ALLOWANCES.

Mr. Ginwala then withdrew this motion and moved the next for reduction of Rs. 100 for travelling and contingencies for the Executive Council. His object he said, was the same as before. He felt that the Executive Members did not deserve travelling allowance by the way in which they were administering the affairs of the country (laughter.)

The President said he would rule out of order if Mr. Ginwala indulged in general criticism of the previous kind as the salaries of Government Members were not subject to vote. They could not review their conduct on such motions but could do so by resolution, morever the demand for travelling was one which had yet to be incurred.

Dr. Gour pointed out that while in the House of Commons a Minister could be criticised on the motion for prospective salary, here they wanted to generally review Government action on a motion for prospective travelling allowance because salaries were non-votable. Moreover, the President had on a previous occasion stated that nominal reductions could be moved for criticising particular departments.

Mr. Seshagiri Iyer said that the House wanted to show that if members had travelled in a better way they would be in a better position to govern the country. (Laughter.)

A BREEZE.

Mr. Ginwala said that he wanted to show that if the Home Member had travelled in time, the Ordianance which was issued by the Governor-General in his Legislative capacity by the exercise of his extraordinary power, while the Assembly was sitting, could have been avoided.

President:—"I am afraid the Hon'ble Member must be finally ruled out of order.

Mr. Ginwala:—"If essential discussion on essential matters connected with the Government administration cannot be allowed, what other clearer argument can be advanced to show that the Reforms have been a failure. We are brought here and are told that we have come to co-operate with the Government of India. If we want to criticize them they take shelter behind the rules framed by themselves."

Sir Malcolm Hailey: "Is the Hon'ble Member justified in saying that the Government of India is taking shelter behind your (President's) ruling, sir."

Mr. Ginwala:—I entirely submit to the opinion of the President. The constitution is worked in such a way that it is possible for the President to give the ruling, that he has given just now. If this is the kind of treatment, then the Reforms have been a total failure. It is no use our discussing and merely examining figures here and there, if we are not at liberty to discuss the principles which underlie these figures.

The Executive Council has allowed itself to be dictated to by the military authorities. It has accepted from the Army people principles to which the people of this country legitimately object.

President:—"I have been very reluctant to interrupt the Hon'ble Member, but he has been persistently ignoring the ruling given from the Chair. The Hon. Member knows that an opportunity for the discussion of a matter he is raising, has previously arisen, can arise, and will arise in future."

MR. GINWALA'S MOTION DEFEATED.

Mr. Ginwala:—"If you will not allow us to discuss the general question of policy, you will drive us to methods which will not expedite the business of this House.

Dr. Sapru pointed out that according to the Government of India Act, the salaries of the Secretaries were not votable and they could not be made votable by Government as desired by one previous speaker.

The motion of Mr. Ginwala was pressed to division and resulted in a tie the voting being 48 for and 48 against.

But before the division was announced, Dr. Sapru said: "It has been brought to my notice that one Hon'ble Member (Haji Wajiuddin) voted on the other side under a misapprehension.

The President said as the Hon'ble Member concerned had given the Secretary to understand that he had voted under a misapprehension, he was entitled to the transfer of his vote. The President, therefore declared the motion for reduction lost by 47 to 49. The result was received with applause by Government Members who narrowly won with the help of the National party's votes against the Democratic Party.

During these three days out of six divisions, the present is the first one when Government and the Nationals have succeeded in defeating the Democrats.

PRICE OF DIGNITY.

Mr. Kamat moved for the abolition of the post of the Ceremonial Officer of the Assembly which costs Rs. 30,000 annually. He thought the duty of the officer which was the remove from the House any member who refused to withdraw when asked by the President could be performed by a Chobdar who would cost one-fifth of the existing expenditure. Mr. Kamat thought the saving thus effected could be utilized for providing a library for the Members of the Assembly.

This desire was supported by several other speakers although they did not endorse the preporsal for the removal of this officer.

Mr. Spence asked whether it would be appropiate to the dignity of any member of this House that if a lamentable occasion arose for his removal that he be removed by a Chobdar, a person of menial status. (laughter.)

Dr. Sapru said the post of the cermonial officer was created by the express wish of the President who desired that the officer should know English and Urdu and should work as usherer of the President to the House and should be utilized for carrying messages of the Assembly to the Council of State. The person encumbent was a distinguished Indian, retired Army Officer who had rendered conspicuous service during the War and was adding to the dignity of the House.

Referring to the desire of several members for a separate staff to meet the requirements of the members of the Assembly, Dr. Sapru explained that as the House sits only for a few months in the year the staff might not have any work to justify employment the whole time incumbent. But if members were desirous of having such a separate department, they must find the money. At any rate he would consider the matter raised.

The President said the desire of the members had been in fact in his mind since he took up his office, but that, on considerations of economy and on finding that the Legislative Department was kindly meeting all their demands, he thought the proposal could be postponed for the present But he promised to undertake thorough examination of the question during the summer.

Mr. Kamat then withdraw his motion.

NON-OFFICIAL CONSCIENCE.

Mr. J. Chowdhuri moved for reduction by almost half the sum allotted for the conveyance allowance to the non-official membrs of both the Houses of Indian Legislature. Mr. Chowdhuri appealed to members who were crying for economy round to economise also in an item which affected them and thus show their sincerity. He also pointed to the unfortunate disparity in the existing scale of allowance.

Mr. Ishwar Saran and Mr. Subramanyam supported the cut while Dr. Gour and Mr. Rangachariar strongly opposed it.

Dr. Sapru said the Government would be interested to find that the democrats and other members were anxious to begin charity at home to do self-sacrifice in the cause of economy. (Laughter). He explained that there was no disparity as complained by the previous speaker.

Sir William Vincent announced that the Government Members would remain neutral. The motion for reduction was put to vote and was defeated by 36 against 31.

As for this motion there were no party votes and all went to the lobby according to their individual conscience.

When the legislative Assembly met again after lunch, the voting on demands for grants was proceeded with. Under the head "General Administration" Dr. Nand Lal moved for a reduction by two lakhs on a provision of three lakhs put down as pay of officers under the Foreign and Political Department.

Mr. Spence pointed out that the vote as the amount under this sub-head did not exceed to two lakhs.

Thereupon Dr. Gour moved for a reduction to the extent of one lakh.

Dr. Gour maintained that there was no justification for the services of two secretaries and two under-secretaries in the combined department. This department had been, somehow or other, growing in strength and volume with the growth of the year and except in a few cases, the work of these two departments had been elosed to the Indians.

Mr. Bray, Foreign Secretary, replied that the two departments though combined for the purposes of economy, were in reality two distinct departments. Their work had, since the change of capital from Calcutta to Delhi, been growing enormously. Because, the Ruling Princes and Chiefs on account of greater accessibility to Delhi, were now coming in battalions whereas they used to come to Calcutta in twos or threes. The work of the Foreign Department had, also, increased an account of the League of Nations. India certainly could not be a member of the League of Nations without having to pay for the expenses connected therewith or doing any of the work imposed on them.

POLITICAL DEPARTMENT.

Mr. Samarth:—But what about the rights of India as an original member of the League of Nations?

Mr. Bray:—I stand up for these rights and as the Foreign Secretary I always will.

Mr. Iswar Saran referred to the statement of Dr. Sapru made last year that a scheme was being prepared to satisfy the aspirations of Indians getting into the Foreign and Political Department and pointedly asked, "What has happened to that scheme? Government of India have not treated Indians well by not making any definite announcement and what is more a communique issued last September says that four Indians have been taken in this Department. This is extremely unsatisfactory. We want to know how many Indians are going to be appointed every year. In this matter that communique is silent. As it is, the department is practically closed to Indians."

The motion for reduction was put and lost.

Then followed a series of withdrawals of motions for reductions, mostly by the members of the Democratic Party in order to reach the bottom of the demands. Under this head there figured a motion by Mr. Rangachari for a reduction of the total demand by five per cent., there was, however, some discussion.

Mr. Choudhary moved for reduction by five hundred rupees of a sum of fifteen hundred for temporary establishment in Education Department was reached. His contention was that an Indian should have been appointed in the place of Mr. Sharp, the Secretary of the Education Department, who is shortly retiring.

Sir Mian Muhamad Shafi replying observed that the work of his department had increased enormously on account of other heads having been attached to it and yet it was the most economically worked department. He paid a tribute to Mr. Sharp for the volume of work he had done and said that his successor though a civilian was one who was imbued with the spirit to work the Reforms not only in letter but also in spirit.

Dr. Sarbhadhikari urged the House not to reduce the amount because a complete co-ordination of educational interests throughout the country was necessary and the department must not feel weakened in that task.

The motion for reduction was then withdrawn.

Another series of withdrawal of [illegible] were witnessed.

Mr. Kamat's motion [illegible] under the sub-head [illegible] ture be omitted was

other departments. He believed that there was scope for economy by cutting down some of the military establishment, and certainly by more effective management of Supply and Transport service. Unless an assurance came from the Government promising a reduction, he would give his vote in favour of the motion of censure.

Mr. Abdur Rahim, from the North Western Frontier Province, heartily supported the existing scale of military expenditure, and asked the Members to remember that the tribes on the frontier possessed no less than five lakhs modern rifles.

Mr. Jamnadas Dwarkadas resented the speech of the Commander-in-Chief made in the Assembly the other day, and declared that the motion was a condemnation of the attitude of the Government of India on its military policy and expenditure.

Dr. Gour and Chowdari Shahbuddin joined the attack on the Army Department, the latter adding that the best policy was to reduce the Army and to increase Constabulary to cope with civil riots.

NO REDUCTION IN COMBATANT STRENGTH.

Sir William Vincent declared that the Government of India's decision was that in the current year the Army Budget could not be reduced without reducing the combatant strength of the army, and it was impossible to reduce the strength at present, Government's decision was nothing more than that. The respective position of the army and the police was that the maintenance of tranquility and safety of India depended entirely on the existence of the military force, although the duty of preserving order and protecting the property and quelling the disturbance rested primarily with the civil police. Government of India and the local Governments had not been negligent on the question of increasing the police force, and certain administrations, such as those of Madras, Punjab and the United Provinces, were already taking steps in that direction. He wished the members would check their extremist countrymen from carrying hostile agitation against Government. Mr. Rangachariar:—"Help us to do so"

The closure was then applied for and the motion of reduction of the nominal sum in the Army Department was then put and carried by sixty votes against twenty-eight. The majority included almost all non-officials, Europeans and Indians, and the motion was carried by almost unanimous support of the non-officials.

GENERAL ADMINISTRATION.

Mr. Rangachariar next moved for reduction of Rs. 54,38,000 under the Total Demand for General Administration. He said, this reduction represented the general five per cent cut and he hoped the House would accept it.

The Home Member and Mr. Sarma announced their willingness to reduce the cost of their Departments by five per cent.

Sir Malcolm Hailey accepted the motion, because he thought it was justifiable to ask the Government to carry five per cent cut in the administrative departments. THEATRICAL CHAT.

The Chefalo-Palermo Company still continue to attract large audiences at the Excelsior Theatre. Undoubtedly this is one of the most entertaining companies of its kind to visit Bombay. Chefalo's performance seem to us to be nothing more or less than one vast drawing room entertainment of the most elaborate kind the most interesting part of the performance being Chefalo's continual excursions from the stage to the stalls. Here he appears to be as much at home amongst the audience as behind the footlights. The idea of Chefalo performing many of his tricks under the very noses, so to speak of his audience is certainly a great one, and was very much appreciated by everyone. The Chefalo Palermo entertainment is the happiest and jolliest performance we have yet had the pleasure of attending at the Excelsior for quite a long time. Chefalo possesses a personality which cannot fail to make appeal, and the show like its originator is the very embodiment of all that is bright breezy and humourous, the latter particularly. This week being the last of the Chefalo-Palermo season in Bombay crowded houses are to be expected. There is to be two more special matinees, to-morrow and Sunday next which will be the farewell performance, and we are told a very fine one at that.

The actual performances we have already described fully in these columns. Those who have not seen the Chefalo-Palermo show should certainly do so before the company leave this week as we have said is one of the best of its kind, and well worth seeing.

Following the Chefalo-Palermo season we are to be entertained by "The Scamps" from the Palace Theatre, London presenting "The Scamps" Mr. Bandman adds further to his already long list of Bombay successes.

"The Scamps" first programme will be performed on March [illegible] are informed will be identical with that given before H. R. H. The Prince of Wales his suit, and his officers at the "Penown" at the Eldorado Theatre Said, which will be most interesting should prove to be a very popular item with our Bombay theatre goers. The Scamps" season at the Excelsior Theatre should prove another opportunity for patrons to partake once more of the pleasures of bright and pleasing entertainment.

HIGH COURT.

CRIMINAL SESSIONS.

ALLEGED CULPABLE HOMICIDE NOT AMOUNTING TO MURDER.

Emperor vs. 1. Dattaram Bhikaji. 2. Rama Shiva.

(Before Mr. Justice Crump and a common Jury.)

The two accused in this case were charged under Section 304, and 109 of the Indian Penal Code in that they committed the offence of culpable homicide not amounting to murder by causing the death of one Vishnu Sonu on 17th October 1921.

Mr. M. A. Haveltvala appeared for the Crown.

Mr. J. N. Mehta instructed by Mr Ratnagar pleader defended the first accused.

Mr. R. D. Vellam defended the second accused.

Briefly the facts as alleged by the Prosecution were that one Vishnu Sonu was returning home at about 8 p.m. on 17th October, when on the offside of Parel Road one Baboo Bandiwadekar and the accused and some others met him. Baboo tripped him down and he and others assaulted him Accused 1 sat on Vishnu's stomach and Accused 2 dealt blows on his face with a stone as a result of which Vishnu got several injuries and died on the third day owing to a rupture of one of the intestives. The same night a Police Constable was sent to arrest Baboo Bandiwadekar and Accused 1 The Police Constable succeeded in arresting Accused 1 but did not get hold of Baboo as he had evidently absconded. Accused 2 was arrested on the 19th instant.

For the Prosecution there were eight witnesses including the two medical men who had examined the wounds on the body of the deceased and held a post mortem of his body. Doctor's opinion was that the rupture of the intestives was fatal and it could be caused by violence.

The defence of Accused 1 was that he was wrongly arrested, as his name appeared to be Dattoo. The persons who had assaulted Vishnu were Baboo Bandiwadekar and his brother Dattoo Bandiwadekar. As the Police Constable did not succeed in arresting Baboo and his brother Datoo, he arrested Accused 1 because his name happened to be Datoo. And he did so at the instance of one Mahdu Tukaram who was an avowed enemy of the Gowdas to which caste Baboo Bandiwadekar and his brother Datoo Bandiwadekar and Accused 1 and 2 belonged. Accused 1 was perfectly innocent.

The defence of Accused 2 was that he was not present at the assault, He was not properly identified by any of the eye-witnesses and, therefore, he was not guilty.

The jury after retiring brought in a unanimous verdict of "not guilty" against both the accused. His Lordship ordered both the accused to be acquitted.

THE BLIND RELIEF ASSOCIATION.

Mainly through the efforts of Dr. Chhatrapati, Principal of the Victoria Memorial School for the Blind, Sir Gokuldas Parekh and and Mr. C. G. Henderson, the Association was founded on the 27th January, 1918, to prevent, and, where possible, to cure blindness and "to help persons who are totally blind or of defective eye-sight to acquire literary and industrial knowledge and training and to help them in obtaining employment." The Free Ophthalmic Hospital at Parel trains field workers for relief work, and during the two years, relief centres or hospitals were opened at Chiplun, Malwan, Vengurla, Chalisgaon, Nagercoil and Balsar. The Industrial Home for the Blind which was started four years back has been amalgamated with the Association. It has been so far availed of by twelve blind persons. They are taugh cane-work and music there. Any lady or gentleman can become a patron of the Association by subscribing Rs. 500. Those who pay Rs. 100 will become its life members. The subscription of an ordinary member is Rs. 5 per year payable in advance.

All communications should be addressed to the Hon. Secretaries, The Blind Relief Association, Imperial House, Lamington Road, Bombay No. 1.

Free Life Readings

To All Who Write at Once

The well-known European Astrologer, Professor Roxroy, has once more decided to favour the people of this country with Free Test Readings of their lives from his office in Holland.

Prof. Roxroy's fame is so well known in this country that he hardly needs an introduction from us. His power to read the lives of people, no matter at what distance they may be is described as simply marvellous.

In August 1913 he clearly predicted the Great War, and informed all his clients that "a bereavement in Royal in Europe." circles will affect most of the crowned heads Even Astrologers of various nationalities and reputation all over the world acknowledge him to be their master, and follow in his footsteps. He tells you what you are capable of, and how you can be successful. He mentions your friends and enemies, and describes the good and bad periods in your life. His description as to past, present and future events will astonish and help you.

Baroness Blanquet, one of the most talented ladies of Paris, says:

"I thank you for my Complete Life Reading, which is really of extraordinary accuracy. I had already consulted several Astrologers, but never before have I been answered with so much truth, or received such complete satisfaction. With sincere pleasure I will recommend you and make your marvellous science known to my friends and acquaintances."

If you want to take advantage of this special offer and obtain a review of your life, mention the name of this paper and get a Trial Reading free. Money not necessary. Simply send your full name and address (written by yourself) the date, month, year and place of your birth, and state whether Mr. Mrs. or Miss.

If you wish you may enclose 8 annas (in stamps of your own country) to pay postage and clerical work. Do not enclose coins in your letter. Send your letter to ROXROY, Dept. 1001 C, No. 42, Emmastraat, The Hague, Holland. Postage to Holland 8 annas.

EXCISE COMMITTEE

LIST OF QUESTIONS

The Secretary of the Excise Committee, which will commence its sittings in Bombay on the 22nd March sends us the following questionaire for publication:—

1. Will you state your profession and what opportunities you have had of forming an opinion on the questions indicated below?

2. What is your opinion generally on (a) the excise policy of Government as laid down in the Government of India's letter F. D. 5001 Exc. of 7th September 1905, the substance of which is quoted below, and (b) the actual results of the policy as it has been carried out in practice And do you consider that it has put an effective check on intemperance?

EXTRACT FROM THE GOVERNMENT OF INDIA'S LETTER.

"The Government of India have no desire to interfere with the habits of those who use alcohol in moderation; this is regarded by them as outside the duty of the Government and it is necessary in their opinion to make due provision for the needs of such persons. Their settled policy, however, is to minimise temptation to those who do not drink, and to discourage excess among those who do, and to the furtherance of this policy all considerations of revenue must beabsolutely subordinated. The most effective method of furthering this policy is to make the tax upon liquor as high as it is possible to raise it without stimulating illicit production to a degree which would increase instead of diminish the total consumption and without driving people to substitute drugs for alcohol or a more for a less harmful form of liquor. Subject to the same considerations the number of liquor shops should be restricted as far as possible; and their location be periodically subject to strict examination with a view to minimise the temptation to drink and to conform as far as is reasonable to public opinion. It is also important to secure that the liquor which is offered for sale is of good quality and not necessarily injurious to health."

3. If you advocate any change in the above policy, what suggestions would you offer to improve upon it

4. Are you in favour of total prohibition? If so, will you state briefly your reasons? Do you consider it to be a practical measure? If so, what steps would you suggest for carrying it out?

5. If you favour prohibition, total or partial, how would you meet the following among other objections usually urged against the adoption of this policy:—

(a) The facility of obtaining liquor by illicit means from palm trees, jaggery, kaju and other sources;

(b) The proximity of Native States and Portuguese territory and the impracticability of enforcing prohibition on them as well as on the neighbouring British districts;

(c) The customs and habits of certain classes in the Presidency and the possibility of serious discontent if those customs and habits are interfered with;

(d) The necessity of maintaining a preventive establishment large enough to cope with illicit distillation everywhere and the increased temptations to levy illegal exactions on the part of the establishment;

(e) The probability of people taking to other intoxicants and deleterious drugs.

6. What is your opinion on the argument frequently advanced that prohibition, although it might not be effective in the present generation, will have a large influnce on the next?

7. If you consider that the end to be aimed at is the complete cessation of consumption of alcoholic liquor, is prohibitive legislation the only means in your opinion for attaining that object, or have you any alternative method, legislative or other, to suggest by which this goal can be reached

8. Would you apply the principle of prohibition to all liquors, whether distilled or fermented? Would you, for example, prohibit the use of toddy or shindi?

9. If in your opinion absolute prohibition is not feasible or desirable, what means would you suggest to control consumption of all kinds of liquors and to gradually reduce it?

MEANS OF CONTROLLING CONSUMPTION.

10. The following are some of the means suggested of controlling consumption:—

(a) Rationing of shops;
(b) Increasing the price of liquor;
(c) Reducing the number of shops;
(d) Reducing days and hours of sale;
(e) Reducing the strength of liquor;
(f) Regulating the location of shops;
(g) Restricting or prohibiting the importation and sale of foreign liquor;
(h) Regulating and where necessary prohibiting certain kinds of license;
(i) Prescribing age limit for customers of liquor;
(j) Encouraging temperance work by subsidising Temperance Associations or by other means;
(k) Restricting or prohibiting the removal of liquor from shops; and

Have you any constructive proposals to make on all or any of these means, or can you suggest any other means towards that end?

11. Are you in favour of the introduction of the principle of local option? If so, would you suggest the means by which local option could be exercised by the public?

12. Would you favour the suggestion of investing local bodies, e.g., municipalities and district or taluka local boards, with the power of determining the number and location of shops in their respective areas If you are in favour of investing local bodies with such power, would you be in favour of making them responsible for raising any part of the revenues that would be sacrificed by the exercise of such powers in their area?

13 Have the existing Advisory Committees been found to be useful institutions? If not, what changes would you advocate in the constitution of these Committees?

13. Have the existing Advisory Committees been found to be useful institution? If not, what changes would you advocate in the constitution of these Committees?

14. Does the evil of drink contribute to an increase in crime and has it any effect on the output of work?

15. If the net result of the recommendations you would make be reduction or absolute extinction of excise, revenue, what sources of income would you suggest to make up the loss?

NOTE ON FINANCIAL SITUATION.

Submitted by Mr. P. J Mead, C.S.I., C.I.E,

The net revenue from Excise may be taken at 3—4 crores (The deficit due to prohibition or even severe restriction may be higher still, as establishments will require considerable strengthening, if illicit distillation is to be suppressed.)

Our other revenues are roughly:—

Land Revenue	4 crores.
Stamps (with new taxation)	2 crores.
Forest	87 lakhs
Irrigation	21 lakhs
Smaller receipts	3 crores.
	10 crores.

And expenditure 13 crores (after deduction of books adjustments under Land Revenue, the 60 lakhs economies just effected))

All public services rendered have to be financed out of the above resources, e.g., Education, Medical, Courts of Justice, Police, as well as administration generally. No Provincial revenue is derived from Customs, Railways, Income Tax and Salt. New taxation must add to existing rates of taxation or be entirely new. Surcharges, e.g, on Income Tax can yield small sums only as the main revenue is earmarked for Central purposes. At present expenditure and revenue are balanced with difficulty and expanded by the increasing demands of especially education.

16. Have you any special remarks to offer in the matter of prohibiting and restricting the use of opium and hemp drugs?

17. How far in your opinion is the custom of giving opium to young children prevalent and among what classes What effect do you consider this custom has on the death-rate among children?

Your Breakfast Coffee will be a real joy—if

you prepare half-and-half with hot, rich Glaxo —the milk with the real English flavour.

Glaxo is the rich milk of British-bred dairy cows from which the water has been removed by the Glaxo Process. This process presents the nourishing solids of the milk in the form of a dry powder, which, packed in a parchment bag inside an airtight sealed tin, comes to you across the seas with all its freshness and flavour unimpaired.

All you have to do is to add *boiling water only* (a half-pint to three dessertspoonfuls of Glaxo). Mix as much as you require *when* you require it—the rest will keep for a considerable period, if the tin be kept tightly closed and in a cool place.
